Climate Class Reference
Standards

IEC 60068-2-2 - Deals with dry heat tests applicable both to heatdissipating and non heat-dissipating specimens IEC 60068-2-30 - Determines the suitability of components, equipment or other articles for use, transportation and storage under conditions of high humidity - combined with cyclic temperature changes and, in general, producing condensation on the surface of the specimen.
IEC 60068-2-1 - Deals with cold tests applicable to both non heat-
