

PROTECTOR K RELAY

Item number	GTIN
ER10018923	4015120018923

Product description

- Switching relay for triggering external devices such as sirens, flash lights and alarm horns
- Can be used with PROTECTOR K 9 V, PROTECTOR K 9 V Lithium, PROTECTOR GD 230 V and PROTECTOR K 230 V
- Separate surface- or recessed-mounted switchbox required

Technical data

GENERAL

Device category	Electrical accessories
Conformity	CE, EAC, RoHS
Floating contact	Break contact / Make contact
Operating voltage	9 V DC
Relay switching capacity	230 V/50 Hz, 5 A (cos phi = 0) 24 V DC, 10 A

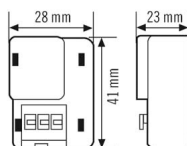

ATTACHMENT

Installation position	Device
Connectable wire cross section	0.75 – 2.5 mm ²

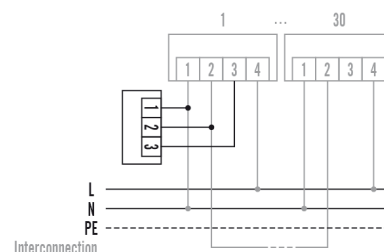

HOUSING

Dimensions	Length 41 mm x Width 28 mm x Height/Depth 23 mm
Weight	25 g
Colour	white, similar to RAL 9010

Dimension drawing

Circuit diagram

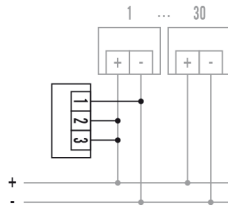

230-V connection. External switching relay for switching external devices such as sirens, flash lights and telephone diallers.

PROTECTOR K RELAY

Item number	GTIN
ER10018923	4015120018923

Circuit diagram

9-V battery operation. External switching relay for switching external devices such as sirens, flash lights and telephone diallers.

Detailed product description

- Switching relay for triggering external devices such as sirens, flash lights and alarm horns
- Can be used with PROTECTOR K 9 V, PROTECTOR K 9 V Lithium, PROTECTOR GD 230 V and PROTECTOR K 230 V
- Separate surface- or recessed-mounted switchbox required
- Quick and simple connection via plug-in terminals
