

EE861

IP55

IP55 Motion Detector Comfort 220° Anthracite

Technical characteristics

Functions

Function	Presence simulation can be used as a single unit, main device or extension unit
----------	--

Main electrical features

Frequency	50/60 Hz
-----------	----------

Dimensions

Height of installed product	2,5 m
Dimensions (W x H x D)	91 x 139 x 153 mm

Power

Incandescent bulb power	2300 W
-------------------------	--------

Capacity

Breaking capacity	16A 250V AC1
-------------------	--------------

Cover, door

Cover	with cover elements to limit the detection field
-------	--

Power supply

Supply voltage	230 V +10% / -15%
----------------	-------------------

Materials

Colour	charcoal
--------	----------

Lighting control

Brightness measurement range	5 / 1000 Lux
------------------------------	--------------

Installation, mounting

Maximum Mounting Height	4 m
-------------------------	-----

Connection

Connection type	quick connect
Type of contacts	contact floating
Type of connection	with screw terminals

Settings

Setting	with potentiometers for setting the response brightness and delay time without dismantling
---------	--

Scope of delivery

Component	with fitting material
-----------	-----------------------

Equipment

Remote controllable	EE806
---------------------	-------

Use conditions

Operating temperature	-20...55 °C
-----------------------	-------------

Identification

Application, usage	Motion detector
--------------------	-----------------
