

## Declaration regarding the REACH - Regulation

We                    ABB b.v.  
Automation Products Division NL  
Frankeneng 15  
6716 AA Ede  
The Netherlands

Declare under our sole responsibility that,

The EU REACH Regulation (RL 1907/2006 EG) demands registration, evaluation, authorization and restriction of chemical substances (Registration, Evaluation and Authorisation of Chemicals ).

REACH requests the registration of all substances according to the general applicable regulations where emissions from the product are intended (under normal and reasonably predictable conditions when in use)

ABB Ede supplies electrotechnical products without any of the substances or preparations for the purpose of such regulation. Consequently we are not required to provide safety data sheets for our products.

As " downstream user" in terms of this regulation we give great attention to the substances and preparations used in our products and ensure they are registered according the REACH regulation, if applicable. Our suppliers are asked to inform us regarding substances that are registered on the candidate list of potentially hazardous substances (SVHC). Currently no indications are existent in regard to our products.

Ede, May 23, 2011.

R.J.H.M. van Hoorn  
BU Manager
